### Kelly Millar, fashion stylist

TUESDAY, 22 APRIL 2008

At what point in the year do I have to give up wearing my UGGs or can I wear them year-round?

L.T.N emailed us at [expert@sweetspot.ca](mailto:expert@sweetspot.ca); and our stylist, Kelly Millar, answered:

It's ok to wear your favourite boots into Spring as long as it's not above 20 degrees. The key is to keep a couple of things in mind:

- **This does not apply to sheepskin or fleece-lined boots.** This means store your UGGs until October.

- **It's Spring so wear your boots accordingly.** Don't wear them with heavy jackets or knits. Instead opt for flowing fabrics, brightly coloured tops and a floral print skirt or dress for a boho-chic look.

- **Be colour conscious,** so leave the blacks and greys in the closet. The best coloured boots to wear for moderate Spring weather are soft brown, off-white or green.

- **Keep in mind the style of boot as well.** Retire the tall boots. However, it's ok to wear your short ankle boots as long as you combine them with fresh Spring touches such as a fabulous trench or floaty cotton dress, minus the Winter tights.

Kelly Millar is a fashion stylist and owner of Kelly Millar Image Consulting in Toronto. She can be reached at [www.km-ic.com](http://www.km-ic.com); [info@km-ic.com](mailto:info@km-ic.com); 647-283-3712.
